

Paper Paper Everywhere

Name:

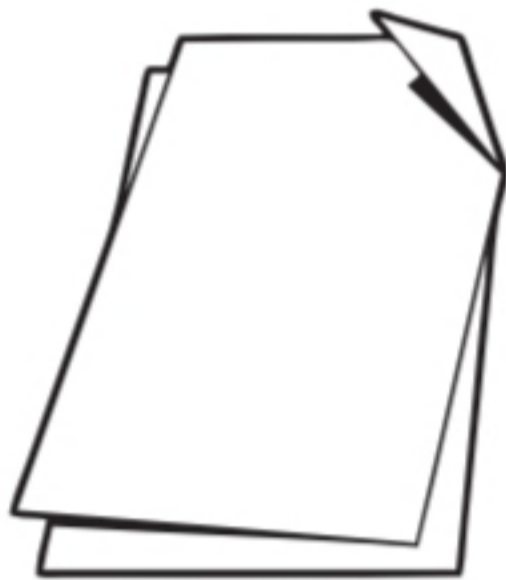

One importance of trees is to make paper. Only special trees are planted to make paper. These trees are fast growing like pine or eucalyptus trees, and new ones are planted in their place when they are cut down. This starts the cycle again. Look at some of the paper based products that are made from paper: unscramble the words to find out what they are.

How many other paper items can you think of that are used every day?

Any suitable answer , you are welcome to send this activity to me privately.

I will assess and then let you know if it is correct.
