

# Ways to stop water pollution

Name: \_\_\_\_\_

Look at what is happening to this river.

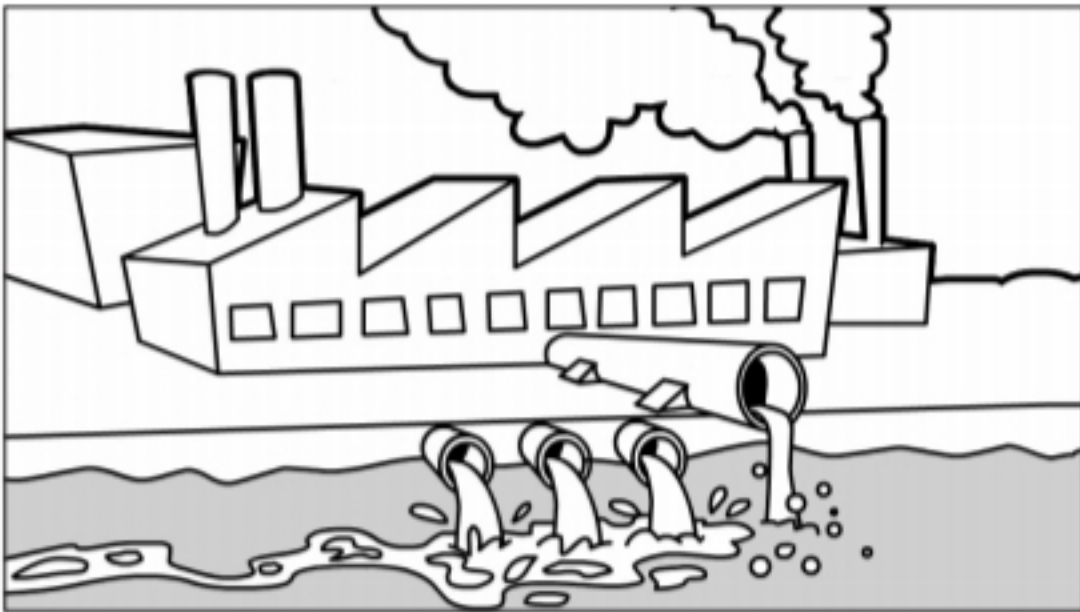

What is the result of this pollution on the animals, plants and humans that use the river water? Discuss this in a group.

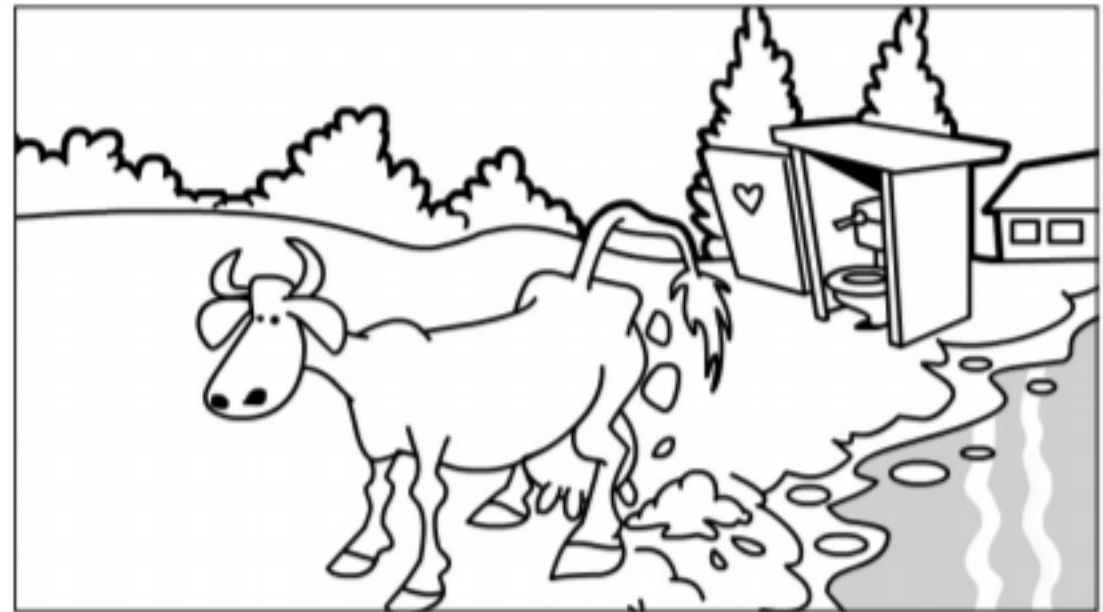

Throwing garbage into the river.

Spraying chemicals on crops near the river.

Factories put their waste into the river.

Animal and human waste near the river.

Using chemical detergents to wash dishes near a river.

Washing clothes in the river with washing powder.

**Work with a group and make a poster showing how to keep a river clean.** Please send the poster in a private message Mrs. I. Duvenhage 072 498 2190
